

# FP500 Series

## Gas Arm

FP510

The FP500 Series allows the monitor height, viewing distance and tilt to be easily adjusted to almost any position.

- Height adjustment of 435mm
- Finished in Light Grey, Black or Silver
- All stands comply to VESA standard
- Custom options available

FP510

FP520

FP530

Ergonomic Solutions is committed to ensuring the workplace is a safe environment with adequate space to carry the full range of work tasks.

It is widely recommended that flat panel monitors should have a good range of tilt, rotation and height adjustment to encourage the user to find the most comfortable working position for their individual needs.

The FP500 Series allows the monitor height, viewing distance and tilt to be easily adjusted with a touch of the hand from a seated position. The built in gas spring ensures smooth but solid movement throughout the full range of adjustment.

Other mounting options are available on request along with other colours, height ranges and proprietary monitor mounts.

Please call us for a quotation.

# FP500 Series

## Gas Arm

Specifications	Single Bolt/Grommet	Desk Clamp	Wall Mount
Part number VESA 75/100	FP510	FP520	FP530
