

FP900 Series

Height Adjustable Wall Mounts

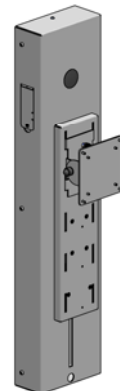

WWW.FP900.COM

The FP900 Series provides a space-saving, vertical wall mount for a variety of technology applications. The built-in spring allows the unit to be adjusted to a height which enables any user to access the technology mounted, from a seated or standing position, in comfort and safety. The FP900 can be adjusted easily by either a light pulling up or pushing down motion on the horizontal plate to achieve the required height. Especially practical in a working area where there is little counter space or where it is not practical to have a dedicated customer service desk.

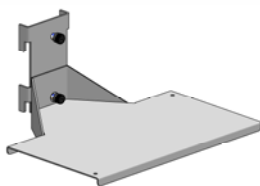

FP900 Specs

- Height adjustment of 330mm
- Overall dimensions 745 x 165 x 70mm (H x W x D)
- Weight range 3-7kg
- Standard solution FP910 with screen mounting VESA 75/100
- Add additional technology peripherals
- Security screw on all peripheral fixings
- 3 year Warranty
